## Annual Management Report of Fund Performance

For the Year Ended March 31, 2024

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR + website at www.sedarplus.ca.
Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.
For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

## A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forwardlooking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.
The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

## Management Discussion of Fund Performance

June 4, 2024
This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2024 (the "period"). If the Fund was established during the period, "period" represents the period since inception.
In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.
Please read A Note on Forward-Looking Statements on the first page of this document.

## Investment Objective and Strategies

The Fund seeks a steady flow of income, while trying to protect capital, by investing mainly in high-quality, short-term fixed income securities issued in Canada by governments, government-related entities and corporations. The Fund may also invest in residential first mortgages insured or guaranteed by Canadian or provincial governments or Crown corporations thereof, either directly or through pooled mortgage investments. It may hold up to $30 \%$ of its assets in foreign investments.

## Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.
The Fund is suitable for short-term investors looking for a Canadian fixed income fund to hold as part of their portfolio, who can handle the volatility of bond markets and who have a low tolerance for risk.

## Results of Operations

## Investment Performance

The performance of all series in the current and previous periods is shown in the Past Performance section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the Fund Formation and Series Information section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.
During the period, the Fund's Series SC securities returned $3.2 \%$, and Series LB securities returned $3.1 \%$ (after deducting fees and expenses paid by the series). This compares with a return of $2.1 \%$ for the Fund's broad-based index, the FTSE Canada Universe Bond Index, and a return of $3.5 \%$ for the Fund's narrow index, the FTSE Canada Short Term Bond Index. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

The Bank of Canada paused interest rate increases in the period, holding its policy rate at $5.00 \%$ after two 25 -basis-point rises. Treasury yields reached peak levels and then fell in response to the policy shift. Wage growth moderated but remained around $5 \%$. Inflation decreased significantly because of slower food price growth, and the Consumer Price Index ended the period near 3\%. The Bank of Canada continued to express concerns about inflation but signalled the possibility of a policy rate cut later in 2024 backed by weaker economic data.
The Fund outperformed the broad-based index, with its shorter overall duration (lower sensitivity to interest rates) contributing to performance. The Fund's overweight exposure to corporate bonds also contributed to performance. Given the Fund's mandate, the return of the narrow index is a more meaningful comparison.
The Fund underperformed the narrow index, with holdings in corporate bonds in the real estate sector detracting from performance. Conversely, overweight exposure to corporate bonds, particularly in the financial sector, contributed to performance.
Over the period, the Fund's exposure to Canada and the United States increased as the portfolio management team increased exposure to higher-yielding corporate bonds, deploying cash in order to capture a capital gain opportunity.

## Net Assets

The Fund's net assets decreased by $31.0 \%$ during the period to $\$ 256.4$ million. This change was composed primarily of $\$ 9.9$ million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of $\$ 125.2$ million due to net securityholder activity (including sales, redemptions and cash distributions).
At March 31, 2024, $10.0 \%$ of the Fund's NAV was held by investors that individually owned $10 \%$ or more of the Fund. As a result, the Fund is subject to large transaction risk as discussed in the Fund's Simplified Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions. At March 31, 2024, Mackenzie had received no such notices.

## Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2024, was generally similar to the MER for the year ended March 31, 2023. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the Financial Highlights section of this report.

## Recent Developments

The portfolio management team believes that while policy interest rates in Canada have peaked, the Bank of Canada's actions will be data dependent and the path for interest rates will be uneven. Given weakening economic indicators and restrictive financial conditions, which may lead to more accommodative monetary policy, the team favours duration in Canada. The team expects opportunities to increase the Fund's duration during selloffs when market pricing underestimates policy rate reductions.

## Related Party Transactions

## Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under Fund Formation and Series Information in this report and as more fully described in the Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also Management Fees.

## Other Related Party Transactions

Investment funds managed by Mackenzie and its affiliates may invest in the Fund. All these investments are made on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2024, funds managed by I.G. Investment Management, Ltd. owned 5.3\% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Fund's Simplified Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.
At March 31, 2024, Mackenzie had an investment of $\$ 0.7$ million in the Fund ( $0.3 \%$ of the Fund's NAV).
During the period, the Fund received $\$ 0.004$ million in income distributions from investments in exchange-traded funds ("ETFs") managed by Mackenzie to offset fees paid within those ETFs. There is no assurance that these distributions will continue in the future.
The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions in the period.

## Past Performance

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.
If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.
On July 6, 2018, the Fund changed its mandate from seeking to provide a level of income consistent with investments in short-term fixed income securities to seeking to provide a steady flow of income with an emphasis on capital preservation, with additional flexibility to invest in foreign securities. The past performance before this date was achieved under the previous objectives.

## Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under Fund Formation and Series Information.

## Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2024. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.
All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

| Series LF | 3.9 | -0.1 | 1.2 | n/a | 1.6 |
| Series LW | 3.3 | -0.6 | 0.6 | n/a | 0.8 |
| FTSE Canada Universe Bond Index* | 2.1 | -1.5 | 0.3 | 2.0 | Note 3 |
| FTSE Canada Short Term Bond Index | 3.5 | 0.2 | 1.3 | 1.6 | Note 4 |

The FTSE Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes federal, provincial, municipal and corporate bonds rated "BBB" or higher.
The FTSE Canada Short Term Bond Index is an index of Canadian bonds with terms to maturity of one to five years and rated "BBB" or higher.
(1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
(2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
(3) The return of the FTSE Canada Universe Bond Index since inception for each applicable series is as follows: Series AR 1.3\%, Series F5 1.9\%, Series FB 1.4\%, Series IG 1.8\%, Series PWFB $1.1 \%$, Series PWR 0.4\%, Series PWT5 1.9\%, Series PWX8 1.8\%, Series S5 1.9\%, Series LF 1.1\%, Series LW 1.0\%.
(4) The return of the FTSE Canada Short Term Bond Index since inception for each applicable series is as follows: Series AR $1.7 \%$, Series F5 $2.6 \%$, Series FB $1.4 \%$, Series IG $3.4 \%$, Series PWFB 1.4\%, Series PWR 1.4\%, Series PWT5 2.6\%, Series PWX8 1.6\%, Series S5 2.6\%, Series LF 1.7\%, Series LW 1.6\%.

The Fund held no short positions at the end of the period.
For the prospectus and other information about the underlying fund(s) held in the portfolio, visit www.mackenzieinvestments.com or www.sedarplus.ca.
The investments and percentages may have changed since March 31, 2024, due to the ongoing portfolio transactions of the Fund. Quarterly updates of holdings are available within 60 days of the end of each quarter except for March 31, the Fund's fiscal year end, when they are available within 90 days.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for each of the fiscal periods presented below. If during the period a fund or series was established or reinstated. "period" represents the period from inception or reinstatement to the end of that fiscal period. Series inception or reinstatement dates can be found under Fund Formation and Series Information.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the Notes to Financial Statements.
(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.
(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of $100 \%$ is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE \| For the Year Ended March 31, 2024

## MACKENZIE CANADIAN SHORT TERM INCOME FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE \| For the Year Ended March 31, 2024

## Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. The Manager also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.
LBC Financial Services Inc. ("LBC") is the principal distributor for the LBC series securities of the Fund (as listed under Fund Formation and Series Information) and receives a portion of the management fees that the Fund pays to the Manager. Under this arrangement, LBC was entitled to approximately $25 \%$ of the total management fees that the Manager received from the LBC series of all Mackenzie funds during the period. The Manager is responsible for paying all distribution-related payments to LBC-authorized dealers whose clients invest in the LBC series of the Fund.
The following dealers affiliated with the Manager may be entitled to distributionrelated payments from the Manager on the same basis as unrelated registered brokers and dealers: Investors Group Securities Inc. and Investors Group Financial Services Inc.
The Manager used approximately $42 \%$ of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distributionrelated payments for the Fund represented on average $37 \%$ of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

## Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Simplified Prospectus.
Date of Formation: January 7, 1994
The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under Financial Highlights.
Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)
Series A securities are offered to retail investors investing a minimum of $\$ 500$ under the redemption charge and low-load purchase options.
Series AR securities are offered to retail investors in a Registered Disability Savings Plan offered by Mackenzie.
Series $D$ securities are offered to retail investors investing a minimum of $\$ 500$ through a discount brokerage or other account approved by Mackenzie.
Series F and Series F5 securities are offered to investors who are enrolled in a dealer-sponsored fee-for-service or wrap program, who are subject to an asset-based fee rather than commissions on each transaction and who invest at least $\$ 500$ ( $\$ 5,000$ for Series F5); they are also available to employees of Mackenzie and its subsidiaries, and directors of Mackenzie. Investors in Series F5 securities also want to receive a monthly cash flow of $5 \%$ per year.
Series FB securities are offered to retail investors investing a minimum of $\$ 500$. Investors are required to negotiate their advisor service fee, which cannot exceed $1.50 \%$, with their financial advisor.
Series I securities are offered to retail investors investing a minimum of $\$ 500$ in a qualified group plan with a minimum of $\$ 10,000,000$ in assets.
Series IG securities are offered exclusively to mutual funds managed by I.G. Investment Management, Ltd.
Series 0 securities are offered only to investors investing a minimum of $\$ 500,000$ who are enrolled in Mackenzie Portfolio Architecture Service or Open Architecture Service; certain institutional investors; investors in a qualified group plan, and certain qualifying employees of Mackenzie and its subsidiaries.
Series PW and Series PWT5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of $\$ 100,000$. Investors in Series PWT5 securities also want to receive a monthly cash flow of $5 \%$ per year.
Series PWFB securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of $\$ 100,000$. Investors are required to negotiate their advisor service fee, which cannot exceed $1.50 \%$, with their financial advisor.
Series PWR securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000 in a Registered Disability Savings Plan offered by Mackenzie.
Series PWX securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of $\$ 100,000$. Investors are required to negotiate their advisor service fee, which cannot exceed $1.50 \%$, with their financial advisor.
Series SC and Series S5 securities are offered to retail investors investing a minimum of \$500 (\$5,000 for Series S5) under the sales charge purchase option. Investors in Series S 5 securities also want to receive a monthly cash flow of $5 \%$ per year.
Series G securities are no longer available for sale, except for additional purchases by investors who have held these securities since December 11, 2017.
Series J, Series M and Series PWX8 securities are no longer available for sale.
Series Distributed by LBC Financial Services Inc. (1360 René-Lévesque Blvd. West, 13th Floor, Montréal, Québec H3G 0A9; 1-800-522-1846;
www.laurentianbank.ca/mackenzie)
Series LB securities are offered to retail investors investing a minimum of $\$ 500$.
Series LF securities are offered to retail investors investing a minimum of $\$ 500$, who are enrolled in the LBC Private Banking sponsored fee-for-service program. Series LW securities are offered through our Preferred Pricing Program to certain high net worth investors who invest a minimum of \$100,000.
Effective June 1, 2022, an investor may purchase the Fund under a sales charge purchase option and a no-load purchase option. Not all purchase options are available under each series of the Fund. The sales charge under the sales charge purchase option is negotiated by the investor with their dealer. Securities purchased before June 1, 2022, under the redemption charge purchase option, low-load 3 purchase option and low-load 2 purchase option (collectively the "deferred sales charge purchase options") may continue to be held in investor accounts. Investors may switch from securities of a Mackenzie fund previously purchased under these deferred sales charge purchase options to securities of other Mackenzie funds, under the same purchase option, until such time as the redemption schedule has expired. For further details, please refer to the Fund's Simplified Prospectus and Fund Facts.
