## Annual Management Report of Fund Performance

For the Year Ended March 31, 2024

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You may obtain a copy of the annual financial statements, at no cost, by contacting us using one of the methods noted under Fund Formation and Series Information or by visiting the SEDAR + website at www.sedarplus.ca.
Securityholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the Fund's Simplified Prospectus and Fund Facts, which may also be obtained, at no cost, using any of the methods outlined above.
For the Fund's current net asset values per security and for more recent information on general market events, please visit our website.

## A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forwardlooking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.
The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

## Management Discussion of Fund Performance

June 4, 2024
This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the Fund's performance and outlook in the year ended March 31, 2024 (the "period"). If the Fund was established during the period, "period" represents the period since inception.
In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.
Please read A Note on Forward-Looking Statements on the first page of this document.

## Investment Objective and Strategies

The Fund seeks a positive total return, regardless of market conditions over a market cycle, by investing primarily in global fixed income and derivative instruments.

## Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.
The Fund is suitable for medium-term investors seeking to diversify a traditional portfolio of fixed income and equity investments, who can handle the volatility of bond markets and who have a low tolerance for risk.

## Results of Operations

## Investment Performance

The performance of all series in the current and previous periods is shown in the Past Performance section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the Fund Formation and Series Information section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.
During the period, the Fund's Series SC securities returned $4.0 \%$, and Series LB securities returned $3.9 \%$ (after deducting fees and expenses paid by the series). This compares with the Bloomberg Multiverse (Hedged) Index return of $3.6 \%$ and the FTSE Canada 91-Day T-Bill Index return of 4.8\%. Effective April 1, 2023, the Bloomberg Multiverse (Hedged) Index (the "new index"), which includes global investment grade and high-yield bonds, replaced the FTSE Canada 91-Day T-Bill Index (the "previous index") in order to better align with the Fund's investment strategy. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.
The U.S. Federal Reserve paused interest rate increases in the period, holding its federal funds rate at a target range of $5.25 \%-5.50 \%$ after two 25 -basis-point rises. However, the floating-rate nature of term loans mitigated their price sensitivity to interest rates (duration risk). Loan prices rose and loan spreads (the margin by which the interest rate exceeds the floating reference rate) narrowed, bolstered by robust economic indicators. Prices of high-yield bonds also rose, and their spreads (the difference in yield between high-yield and investment grade bonds) narrowed.
The Fund outperformed the new index, with overweight exposure to corporate bonds and holdings in term loans contributing to performance. Within corporate bonds, security selection in the industrial and energy sectors contributed to performance. Holdings in corporate bonds in the real estate sector detracted from performance.

The Fund underperformed the previous index, with holdings in federal and foreign government bonds detracting from performance. Holdings in corporate bonds, particularly in the energy and industrial sectors, contributed to performance.
The Fund's currency management detracted from performance relative to the new index.
The Fund held selected government bond futures to manage duration (sensitivity to interest rates), which contributed to performance relative to both indices. Options on high-yield bond exchange-traded funds, held to mitigate credit risk, detracted from performance.
Over the period, the portfolio management team increased exposure to higheryielding foreign government bonds, deploying cash in order to capture a capital gain opportunity.

## Environmental, Social and Governance ("ESG") Integration

The Fund added a sustainable bond issued by America Movil SAB de CV $(9.50 \%$, 01-27-2031), which offers wireless, fixed-line, voice, broadband and video services across 15 Latin American and Caribbean countries. The company released its sustainable financing framework in October 2022 and issued its first sustainable bond in November 2022. The allocation of proceeds has been $57 \%$ to social projects, including access to essential services, and $43 \%$ to green projects, including energy efficiency and renewable energy.

## Net Assets

The Fund's net assets increased by $1.6 \%$ during the period to $\$ 3.0$ billion. This change was composed primarily of $\$ 142.6$ million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of $\$ 95.0$ million due to net securityholder activity (including sales, redemptions and cash distributions).

## Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2024, was generally similar to the MER for the year ended March 31, 2023. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the Financial Highlights section of this report.

## Recent Developments

The portfolio management team believes that robust economic data and elevated inflation at period-end have diminished earlier market expectations for U.S. Federal Reserve policy easing, and the team has a neutral view on duration in the United States. Given weakening economic indicators and restrictive financial conditions, which may lead to more accommodative monetary policy, the team favours duration in Canada. The team expects opportunities to increase the Fund's Canadian duration during selloffs when market pricing underestimates policy rate reductions. In emerging markets, the team believes local currency bonds remain attractive for both high coupons and capital appreciation.
The team is cautious about high-yield bonds and term loans as economic uncertainty challenges credit fundamentals amid tighter spreads (the difference in yield between high-yield and investment grade bonds). The team believes issuer selection and sound credit research remain important in assessing investment opportunities.

## Related Party Transactions

## Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under Fund Formation and Series Information in this report and as more fully described in the Prospectus. In

## MACKENZIE UNCONSTRAINED FIXED INCOME FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE \| For the Year Ended March 31, 2024
return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also Management Fees.

## Other Related Party Transactions

At March 31, 2024, the Fund held an investment of $\$ 53.0$ million ( $1.8 \%$ of the Fund's NAV) in Northleaf Private Credit II LP, a private fund managed by Northleaf Capital Partners, a company affiliated with the Manager. This represents US\$40.6million as part of a total commitment to invest US $\$ 50.3$ million. In making the investment, the Manager relied on a positive recommendation previously issued by the Mackenzie Funds' Independent Review Committee.
At March 31, 2024, the Fund held an investment of $\$ 26.8$ million ( $0.9 \%$ of the Fund's NAV) in Sagard Credit Partners II, LP, a private fund managed by Sagard Holdings Inc., a company affiliated with the Manager. This represents US $\$ 17.8$ million as part of a total commitment to invest US\$50.2 million. In making the investment, the Manager relied on a positive recommendation previously issued by the Mackenzie Funds' Independent Review Committee.
Investment funds managed by Mackenzie and its affiliates may invest in the Fund. All these investments are made on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2024, funds managed by Mackenzie owned $23.6 \%$ of the Fund's NAV, funds managed by I.G. Investment Management, Ltd. owned 11.7\% of the Fund's NAV, and funds managed by The Canada Life Assurance Company and Canada Life Investment Management Ltd. owned $22.8 \%$ of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Fund's Simplified Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.
At March 31, 2024, Mackenzie had an investment of $\$ 0.2$ million in the Fund (less than $0.1 \%$ of the Fund's NAV).
During the period, the Fund received $\$ 1.4$ million in income distributions from investments in exchange-traded funds ("ETFs") managed by Mackenzie to offset fees paid within those ETFs. There is no assurance that these distributions will continue in the future.

## Past Performance

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.
If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

## Year-by-Year Returns

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under Fund Formation and Series Information.

## MACKENZIE UNCONSTRAINED FIXED INCOME FUND

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE \| For the Year Ended March 31, 2024

The following bar chart presents the performance of the Fund's long and short portfolio positions for the period ended March 31, 2024, before deducting fees and expenses and before the effect of other assets (liabilities).

## Annual Compound Returns

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2024. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.
All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

* New broad-based index
** Previous broad-based index
The Bloomberg Multiverse (Hedged) Index is a broad-based measure of the global fixed income market. The index represents the union of the Global Aggregate Index, a broad-based measure of the global investment grade fixed-rate debt markets, and the Global High-Yield Index, a broad-based measure of the global high-yield fixed income markets, and captures securities in all eligible currencies. The return of this index is calculated with a hedge to foreign currencies, which limits the impact of foreign exchange rate fluctuations on Canadian-dollar returns. In future reports, performance will be compared to this index.
The FTSE Canada 91-Day T-Bill Index is an index of Government of Canada treasury bills with maturities of less than 91 days. In future reports, performance will no longer be compared to this index.
(1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
(2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
(3) The return of the Bloomberg Multiverse (Hedged) Index since inception for each applicable series is as follows: Series A $1.7 \%$, Series AR 1.4\%, Series CL $-2.0 \%$, Series D $1.7 \%$, Series F $1.7 \%$, Series F8 1.0\%, Series FB $1.5 \%$, Series IG 1.0\%, Series 0 1.6\%, Series PW 1.5\%, Series PWFB 1.2\%, Series PWR 0.6\%, Series PWT8 1.2\%, Series PWX 1.6\%, Series R 1.7\%, Series S $1.5 \%$, Series SC $1.7 \%$, Series $\mathrm{S} 81.5 \%$, Series T8 $1.6 \%$, Series LB $-0.4 \%$, Series LF $-0.4 \%$, Series LW $-0.4 \%$.
(4) The return of the FTSE Canada 91-Day T-Bill Index since inception for each applicable series is as follows: Series A $1.4 \%$, Series AR $1.5 \%$, Series CL $2.5 \%$, Series D 1.4\%, Series F 1.4\%, Series F8 $1.8 \%$, Series FB $1.5 \%$, Series IG $1.9 \%$, Series $01.5 \%$, Series PW 1.5\%, Series PWFB 1.7\%, Series PWR $2.0 \%$, Series PWT8 $1.7 \%$, Series PWX 1.6\%, Series R $1.4 \%$, Series S $1.5 \%$, Series SC $1.5 \%$, Series S8 1.5\%, Series T8 1.5\%, Series LB 2.1\%, Series LF 2.1\%, Series LW 2.1\%.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the Notes to Financial Statements.
(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.
(2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
(3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of $100 \%$ is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

## Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, and providing other services. The Manager also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

LBC Financial Services Inc. ("LBC") is the principal distributor for the LBC series securities of the Fund (as listed under Fund Formation and Series Information) and receives a portion of the management fees that the Fund pays to the Manager. Under this arrangement, LBC was entitled to approximately $25 \%$ of the total management fees that the Manager received from the LBC series of all Mackenzie funds during the period. The Manager is responsible for paying all distribution-related payments to LBC-authorized dealers whose clients invest in the LBC series of the Fund.

The following dealers affiliated with the Manager may be entitled to distributionrelated payments from the Manager on the same basis as unrelated registered brokers and dealers: Investors Group Securities Inc. and Investors Group Financial Services Inc.
The Manager used approximately $42 \%$ of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distributionrelated payments for the Fund represented on average $19 \%$ of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE \| For the Year Ended March 31, 2024

## Fund Formation and Series Information

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Simplified Prospectus.
Date of Formation: November 24, 2014
The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under Financial Highlights.
Series Offered by Mackenzie Financial Corporation (180 Queen Street West, Toronto, Ontario, M5V 3K1; 1-800-387-0614; www.mackenzieinvestments.com)
Series A and Series T8 securities are offered to retail investors investing a minimum of $\$ 500$ ( $\$ 5,000$ for Series T ) under the redemption charge and low-load purchase options. Investors in Series T8 securities also want to receive a monthly cash flow of $8 \%$ per year.
Series AR securities are offered to retail investors in a Registered Disability Savings Plan offered by Mackenzie.

www.laurentianbank.ca/mackenzie)
Series LB securities are offered to retail investors investing a minimum of $\$ 500$.
Series LF securities are offered to retail investors investing a minimum of $\$ 500$, who are enrolled in the LBC Private Banking sponsored fee-for-service program. Series LW securities are offered through our Preferred Pricing Program to certain high net worth investors who invest a minimum of \$100,000.
Effective June 1, 2022, an investor may purchase the Fund under a sales charge purchase option and a no-load purchase option. Not all purchase options are available under each series of the Fund. The sales charge under the sales charge purchase option is negotiated by the investor with their dealer. Securities purchased before June 1, 2022, under the redemption charge purchase option, low-load 3 purchase option and low-load 2 purchase option (collectively the "deferred sales charge purchase options") may continue to be held in investor accounts. Investors may switch from securities of a Mackenzie fund previously purchased under these deferred sales charge purchase options to securities of other Mackenzie funds, under the same purchase option, until such time as the redemption schedule has expired. For further details, please refer to the Fund's Simplified Prospectus and Fund Facts.
